THE *Open* GROUP

# ArchiMate® adds value to TOGAF*TM*
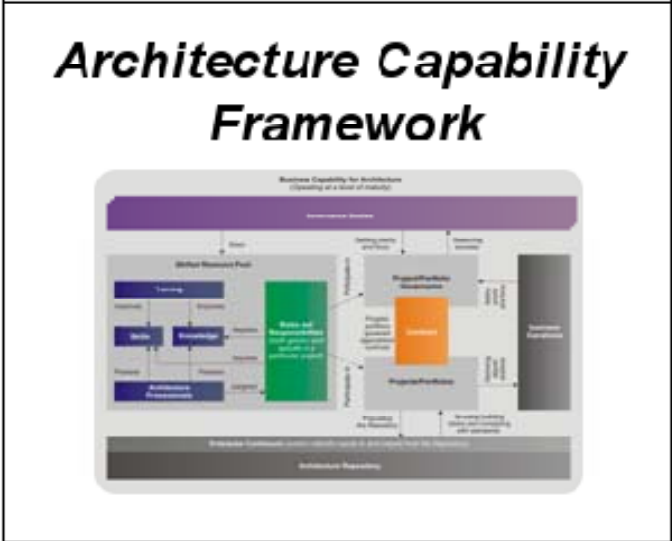

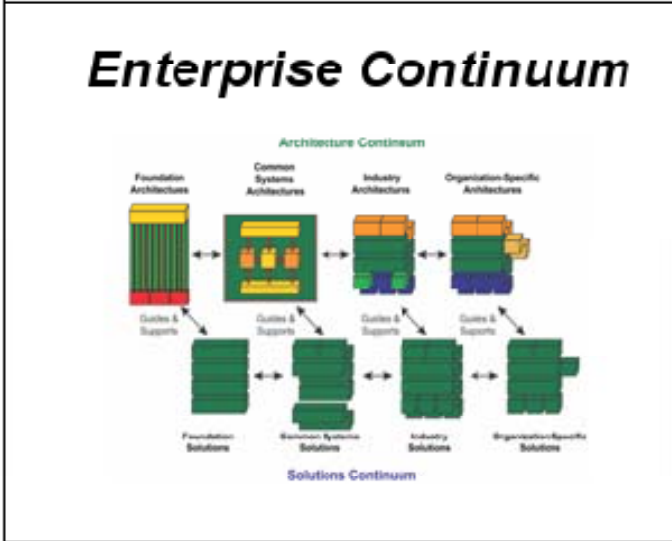

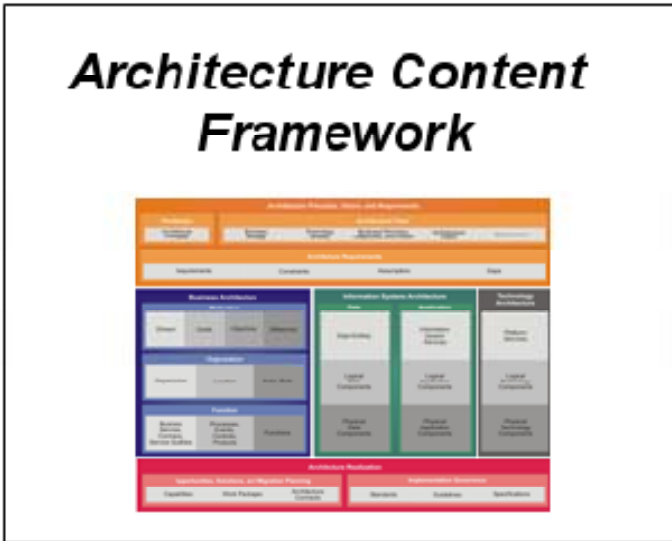

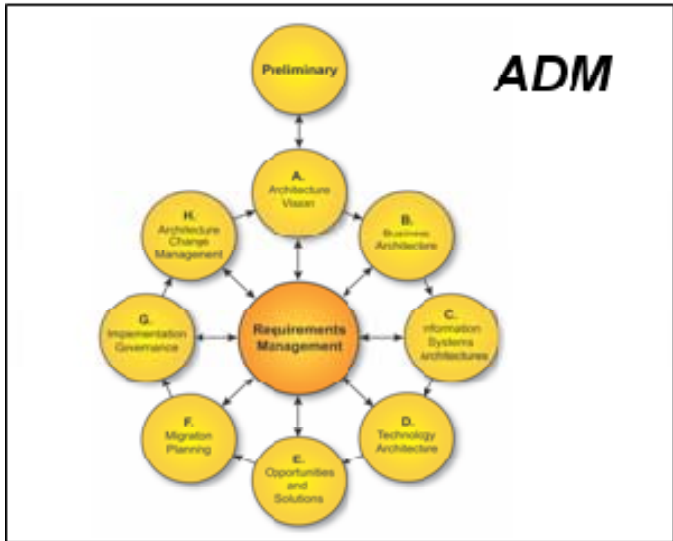

ArchiMate®

By providing one language…

ArchiMate®

THE *Open* GROUP

The ArchiMate® 1.0 Specification

- Open & independent modelling language for EA
- Covers TOGAF-ADM
- In use at many end-user organizations
- Supported by different tools vendors, consultancy firms & education parties.
- A true open standard

ArchiMate®

THE *Open* GROUP

ArchiMate characteristics

- Business, application and technology layer
- Domain models for:
  - product, process, organisation, application, information, data, technology.
- But also:
  - their interrelationships!
  - Automatic view and analysis mechanisms!
- Service paradigm in all layers
- Result: Easier communication & collaboration with stakeholders through clear models.

- Also starting point for MDA:
  - Implementation relationships to BPMN, UML
