The Open Group's Mobile Management Forum Mission

Where have we been focussed?

① Sessions Management

- Developed requirements for maintaining a **secure, reliable session** while mobile.

② Synchronisation

- Outlined an Open Synchronisation **Framework** between devices.

③ Authentication, Authorisation, Accounting (AAA)

- Drill down into the issue that existing and current proposed standards are not perceived to meet the needs of a mobile enterprise end user.

④ Content Trans-coding and Transformation

- Define a **common set of characteristics** that support single creation of content for delivery to any device.

⑤ MaD - Mobile and Directory joint working group

- Business Scenario (executive on the move)
